Auditors' Report

To
The Members of MphasiS Finsource Limited

1. We have audited the attached Balance Sheet of MphasiS Finsource Limited ('the Company') as at March 31, 2011 and also the Profit and Loss account and the Cash Flow statement for the year ended on that date annexed thereto. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.
2. We conducted our audit in accordance with auditing standards generally accepted in India. Those Standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.
3. Without qualifying our opinion we draw attention to Note 3 of Schedule 1 to the accompanying financial statements. As at March 31, 2011 net worth of the Company is fully eroded and company has negative net worth of Rs. 17,368,242 (March 31, 2010: Rs. 28,323,797). Further the Company has net current liabilities of Rs. 66,688,179 as at 31 March 2011(including unsecured loan) (March 31, 2010: Rs. 94,810,028). The Company's ability to continue as a going concern is dependent on establishing profitable operations, renewal of agreement with its customer and obtaining continuing financial support from its parent Company. These mitigating factors have been more fully discussed in Note 3 of Schedule 1 to the accompanying financial statements, in view of which the financial statements have been prepared under the going concern assumption, and consequently, no adjustment have been made to the carrying values or classification of assets and liabilities.
4. As required by the Companies (Auditor's Report) Order, 2003 (as amended) issued by the Central Government of India in terms of sub-section (4A) of Section 227 of the Companies Act, 1956, we enclose in the Annexure a statement on the matters specified in paragraphs 4 and 5 of the said Order.
5. Further to our comments in the Annexure referred to above, we report that:
 - i. We have obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - ii. In our opinion, proper books of account as required by law have been kept by the Company so far as appears from our examination of those books;

 - iv. In our opinion, the Balance Sheet, Profit and Loss account and Cash Flow statement dealt with by this report comply with the accounting standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956.

Mphasis Finsource Limited

Notes to the Financial Statements

1. SIGNIFICANT ACCOUNTING POLICIES

Basis of preparation

The financial statements of Mphasis Finsource Limited (the Company) have been prepared and presented under the historical cost convention on the accrual basis of accounting and comply with the mandatory Accounting Standards ('AS') prescribed in the Companies (Accounting Standards) Rules, 2016 (as amended) and other pronouncements of the Institute of Chartered Accountants of India ('ICAI') and the relevant provisions of Companies Act, 1956.

Use of estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities on the date of the financial statements and the reported amounts of revenues and expenses. Actual results could differ from those estimates. Any revision to accounting estimates is recognised prospectively in current and future years.

Revenue recognition

The Company derives its revenues from call centres and business process outsourcing services.

Revenues from BPO services arises from both time-based and unit priced client contracts. Such revenue is recognised on completion of the related service and is billable in accordance with the specific terms of the contracts with clients.

'Unbilled revenues' included in current assets represent revenues in excess of amounts billed as at the balance sheet date. 'Unbilled receivables' included in current liabilities represents the billing in excess of revenues recognised as at the balance sheet date.

Advances received for services are reported as liabilities until all conditions of revenue recognition are met.

Interest on the deployment of funds is recognised using the time proportion method, based on underlying interest rates.

Fixed assets and capital work-in-progress

Fixed assets are stated at the cost of acquisition or construction less accumulated depreciation. Direct costs are capitalised until assets are ready to be put to use. Borrowing costs directly attributable to acquisition or construction of those fixed assets which necessarily take a substantial period of time to get ready for their intended use are capitalised. Fixed assets purchased in foreign currency are recorded at cost based on exchange rate on the date of purchase. Acquired intangible assets are capitalised at the acquisition price.

Advances paid towards acquisition of fixed assets and the cost of assets not ready for use as at the balance sheet date are disclosed under capital work-in-progress.

Depreciation and amortisation

Depreciation on fixed assets is provided using the straight line method over the estimated useful lives of assets. Depreciation is charged on a proportionate basis for all assets purchased and sold during the year. Individual assets costing ₹ 5,000 or less are depreciated in full in the year of purchase. The estimated useful lives of assets are as follows:

Assets	Years
Plant and machinery (including telecom equipments)	5
Computer equipment	5
Office equipment	5
Furniture and fixtures	5
Vehicles	4

Leasehold improvements are amortized over the remaining lease term or 5 years, whichever is shorter. Purchased application software and internally generated software that is an integral part of the Company's computer systems, expected to provide lasting benefits, is capitalised at cost and amortized on the straight-line method over its estimated useful life or 3 years, whichever is shorter.

Leases

Lease where the lessor effectively retains substantially all the risks and benefits of ownership of the leased term, are classified as operating leases. Operating lease payments are recognized as an expense in the profit and loss account on a straight-line basis over the lease term.

Impairment of assets

The Company assesses at each balance sheet date whether there is any indication that a fixed asset may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognized in the profit and loss account. If at the balance sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the loss is reflected at the recoverable amount subject to a maximum of depreciated historical cost.

Mphasis Finsource Limited

Employee benefits

Gratuity which is a defined benefit is accrued based on independent actuarial valuation which is done based on project unit credit method as at the balance sheet date. Actuarial gains/losses are immediately taken to profit and loss account and are not deferred.

The cost of short term compensated absence is provided for based on estimates. Long term compensated absences cost are provided for based on actuarial valuation which is done based on project unit credit method.

Contributions payable to recognised provident fund, which is a defined contribution scheme, is charged to the profit and loss account. The Company's liability is limited to the contribution made to the fund.

Foreign currency

Foreign exchange transactions are recorded at the rates of exchange prevailing on the dates of the respective transactions. Exchange differences arising on foreign exchange transactions settled during a year are recognized in the profit and loss account of that year.

Monetary assets and liabilities denominated in foreign currencies as at the balance sheet date are translated at the exchange rates on that date. The resultant exchange differences are recognized in the profit and loss account.

Income taxes

Tax expense comprises of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961 enacted in India. Deferred income taxes reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years.

Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to the taxes on income levied by same governing taxation laws. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. In situations where the company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that they can be realised against future taxable profits.

At each balance sheet date the Company re-assesses unrecognised deferred tax assets. It recognises unrecognised deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realised.

The carrying amount of deferred tax assets are reviewed at each balance sheet date. The company writes down the carrying amount of a deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax assets can be realised. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

MAT credit is recognised as an asset only when and to the extent there is convincing evidence that the company will pay normal income tax during the specified period. In the year in which the Minimum Alternative tax (MAT) credit becomes eligible to be recognised as an asset in accordance with the recommendations contained in guidance Note issued by the Institute of Chartered Accountants of India, the said asset is created by way of a credit to the profit and loss account and shown as MAT Credit Entitlement. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT Credit Entitlement to the extent there is no longer convincing evidence to the effect that Company will pay normal Income Tax during the specified period.

Provisions and contingent liabilities

The Company recognises a provision when there is a present obligation as a result of an obligating event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Provisions for onerous contracts, i.e. contracts where the expected unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received under it, are recognized when it is probable that an outflow of resources embodying economic benefits will be required to settle a present obligation as a result of an obligating event, based on a reliable estimate of such obligation. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Earnings per share

The basic earnings per share is computed by dividing the net profit attributable to equity shareholders for the year by the weighted average number of equity shares outstanding during the year. The number of shares used in computing diluted earnings per share, comprises the weighted average shares considered for deriving basic earnings per share, and also the weighted average number of equity shares which would have been issued on the conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the year, unless they have been issued at a later date. The diluted potential equity

Mphasis Finsource Limited

shares have been adjusted for the proceeds receivable had the shares been actually issued at the average market value of the outstanding shares. In computing dilutive earnings per share, only potential equity shares that are dilutive and that either reduce earnings per share or increase loss per share are included.

Cash flow statements

Cash flows are reported using the indirect method whereby net profit before tax is adjusted for the effects of the transactions of a non cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from regular revenue generating, investing and financing activities of the Company are segregated.

Cash and cash equivalents

Cash and cash equivalents comprise cash and cash on deposit with banks. The Company considers all highly liquid investments with an original maturity at the date of purchase of three months or less and that are readily convertible to known amounts of cash to be cash equivalents.

Auditors' Report

To
The Members of Mphasis Finsource Limited

1. We have audited the attached balance sheet of Mphasis Finsource Limited ('the Company') as at 31 March 2012 and also the statement of profit and loss and the cash flow statement for the year ended on that date annexed thereto. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.
2. We conducted our audit in accordance with auditing standards generally accepted in India. Those Standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.
3. Without qualifying our opinion we draw attention to Note 3 of accompanying financial statements. As at 31 March 2012 net worth of the Company is fully eroded and the Company has negative net worth of ₹ 11,208,661 (31 March 2011: ₹ 17,368,242). Further the Company has net current liabilities of ₹ 68,347,403 as at 31 March 2012 (including short term borrowings) (31 March 2011: ₹ 87,796,695). These conditions indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern, which is dependent on establishing profitable operations and obtaining continuing financial support from its shareholders. These mitigating factors have been fully disclosed in Note 3 of financial statements, in view of which the financial statements have been prepared under the going concern assumption, and consequently, no adjustment have been made to the carrying values or classification of assets and liabilities.
4. As required by the Companies (Auditor's Report) Order, 2003 (as amended) issued by the Central Government of India in terms of sub-section (4A) of Section 227 of the Companies Act, 1956, we enclose in the Annexure a statement on the matters specified in paragraphs 4 and 5 of the said Order.
5. Further to our comments in the Annexure referred to above, we report that:
 - i. We have obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - ii. In our opinion, proper books of account as required by law have been kept by the Company so far as appears from our examination of those books;
 - iii. The balance sheet, statement of profit and loss and cash flow statement dealt with by this report are in agreement with the books of account;
 - iv. In our opinion, the balance sheet, statement of profit and loss and cash flow statement dealt with by this report comply with the accounting standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956;

- v. On the basis of the written representations received from the directors, as on 31 March 2012, and taken on record by the Board of Directors, we report that none of the directors is disqualified as on 31 March 2012 from being appointed as a director in terms of clause (g) of sub-section (1) of section 274 of the Companies Act, 1956;
- vi. In our opinion and to the best of our information and according to the explanations given to us, the said accounts give the information required by the Companies Act, 1956, in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India;
- in the case of the balance sheet, of the state of affairs of the Company as at 31 March 2012;

Mphasis Finsource Limited

1. Corporate Information

Mphasis Finsource Limited was incorporated in India to set up and manage call centres and carry out business process outsourcing service to its clients.

The Company is a subsidiary of Mphasis Limited ("ML", the parent company). In terms of a merger agreement executed between Electronic Data Systems Corporation, Hewlett-Packard Company ("HP") and Hawk Merger Corporation, the last named merged into Electronic Data Systems Corporation on 26 August 2008. As a result of this merger, Electronic Data Systems Corporation became a 100% subsidiary of HP and was renamed as Electronic Data Systems LLC. Prior to the above merger, Electronic Data System Corporation was the ultimate holding company, however subsequent to the merger, HP became the ultimate holding company of Mphasis Finsource Limited.

2. Basis of preparation

The financial statements of Mphasis Finsource Limited (the Company) have been prepared and presented under the historical cost convention on the accrual basis of accounting and comply with the mandatory Accounting Standards ("AS") prescribed in the Companies (Accounting Standards) Rules, 2006 (as amended) and other pronouncements of the Institute of Chartered Accountants of India ("ICAI") and the relevant provisions of Companies Act, 1956.

The accounting policies adopted in the preparation of financial statements are consistent with those of previous year, except for the change in accounting policy explained below:

2.1 Summary of significant accounting policies

a. Change in accounting policy

Presentation and disclosure of financial statements

During the year ended 31 March 2012, the revised schedule VI notified under the Companies Act 1956 has become applicable to the Company, for preparation and presentation of its financial statements. The adoption of revised Schedule VI does not impact recognition and measurement principles followed for preparation of financial statements. However it has significant impact on presentation and disclosures made in the financial statements. The Company has also reclassified the previous year figures in accordance with the requirements applicable in the current year.

b. Use of estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities on the date of the financial statements and the reported amounts of revenues and expenses. Actual results could differ from those estimates. Any revision to accounting estimates is recognised prospectively in current and future years.

c. Revenue recognition

The Company derives its revenues from call centres and business process outsourcing services (BPO).

Revenues from BPO services arises from both time-based and unit priced client contracts. Such revenue is recognised on completion of the related service and is billable in accordance with the specific terms of the contracts with clients.

"Unbilled revenues" included in current assets represent revenues in excess of amounts billed as at the balance sheet date. "Unbilled receivables" included in current liabilities represents the billing in excess of revenues recognised as at the balance sheet date.

Advances received for services are reported as liabilities until all conditions of revenue recognition are met.

Interest on the deployment of funds is recognised using the time-proportion method, based on underlying interest rates.

d. Fixed assets and capital work-in-progress

Fixed assets are stated at the cost of acquisition or construction less accumulated depreciation. Direct costs are capitalised until assets are ready to be put to use. Borrowing costs directly attributable to acquisition or construction of those fixed assets which necessarily take a substantial period of time to get ready for their intended use are capitalised. Fixed assets purchased in foreign currency are recorded at cost based on exchange rate on the date of purchase. Acquired intangible assets are capitalised at the acquisition price.

Advances paid towards acquisition of fixed assets are disclosed as capital advance under long term loans and advances and the cost of assets not ready for use as at the balance sheet date are disclosed under capital work-in-progress.

Mphasis Finsource Limited

e. Depreciation and amortisation

Depreciation on fixed assets is provided using the straight line method over the estimated useful lives of assets. Depreciation is charged on a proportionate basis for all assets purchased and sold during the year. Individual assets costing ₹ 5,000 or less are depreciated in full in the year of purchase. The estimated useful lives of assets are as follows:

Assets	Years
Plant and machinery (including telecom equipments)	5
Computer equipment	5
Office equipment	5
Furniture and fixtures	5
Vehicles	5

Leasehold improvements are amortized over the remaining lease term or 5 years, whichever is shorter. Purchased application software and internally generated software that is an integral part of the Company's computer systems, expected to provide lasting benefits, is capitalised at cost and amortised on the straight-line method over its estimated useful life or 3 years, whichever is shorter.

f. Leases

Lease where the lessor effectively retains substantially all the risks and benefits of ownership of the leased term, are classified as operating leases. Operating lease payments are recognized as an expense in the statement of profit and loss on a straight line basis over the lease term.

g. Impairment of assets

The Company assesses at each balance sheet date whether there is any indication that a fixed asset may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the statement of profit and loss. If at the balance sheet date there is an indication that if a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciated historical cost.

h. Employee benefits

Gratuity which is a defined benefit is accrued based on independent actuarial valuation which is done based on project unit credit method as at the balance sheet date. Actuarial gains/losses are immediately taken to statement of profit and loss and are not deferred.

The cost of short term compensated absence is provided for based on estimates. The Company presents the entire leave as a current liability in the balance sheet, since it does not have an unconditional right to defer its settlement for 12 months after the reporting date. Long term compensated absences cost are provided for based on actuarial valuation which is done based on project unit credit method.

Contributions payable to recognised provident fund, which is a defined contribution scheme, is charged to the statement of profit and loss. The Company's liability is limited to the contribution made to the fund.

i. Foreign currency

Foreign exchange transactions are recorded at the rates of exchange prevailing on the dates of the respective transactions. Exchange differences arising on foreign exchange transactions settled during a year are recognized in the statement of profit and loss of that year.

Monetary assets and liabilities denominated in foreign currencies as at the balance sheet date are translated at the exchange rates on that date. The resultant exchange differences are recognized in the statement of profit and loss.

Mphasis Finsource Limited

j. Income taxes

Tax expense comprises of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961 enacted in India. Deferred income taxes reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years.

Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to the taxes on income levied by same governing taxation laws. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. In situations where the Company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that they can be realised against future taxable profits.

At each balance sheet date the Company re-assesses unrecognised deferred tax assets. It recognises unrecognised deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realised.

The carrying amount of deferred tax assets are reviewed at each balance sheet date. The company writes-down the carrying amount of a deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realised. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

MAT credit is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. In the year in which the Minimum Alternative tax (MAT) credit becomes eligible to be recognized as an asset in accordance with the recommendations contained in guidance Note issued by the Institute of Chartered Accountants of India, the said asset is created by way of a credit to the statement of profit and loss and shown as MAT Credit Entitlement. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT Credit Entitlement to the extent there is no longer convincing evidence to the effect that Company will pay normal Income Tax during the specified period.

k. Provisions and contingent liabilities

The Company recognises a provision when there is a present obligation as a result of an obligating event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Provisions for onerous contracts, i.e. contracts where the expected unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received under it, are recognised when it is probable that an outflow of resources embodying economic benefits will be required to settle a present obligation as a result of an obligating event, based on a reliable estimate of such obligation. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

l. Earnings per share

The basic earnings per share is computed by dividing the net profit attributable to equity shareholders for the year by the weighted average number of equity shares outstanding during the year. The number of shares used in computing diluted earnings per share comprises the weighted average shares considered for deriving basic earnings per share, and also the weighted average number of equity shares which would have been issued on the conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the year, unless they have been issued at a later date. The diluted potential equity shares have been adjusted for the proceeds receivable had the shares been actually issued at the average market value of the outstanding shares. In computing dilutive earnings per share, only potential equity shares that are dilutive and that either reduce earnings per share or increase loss per share are included.

m. Cash and cash equivalents

Cash and cash equivalents comprise cash and cash on deposit with banks. The Company considers all highly liquid investments with an original maturity at the date of purchase of three months or less and that are readily convertible to known amounts of cash to be cash equivalents.

Mphasis Finsure Limited

INDEPENDENT AUDITOR'S REPORT

To the Members of Mphasis Finsource Limited

Report on the Financial Statements

We have audited the accompanying financial statements of Mphasis Finsource Limited ("the Company"), which comprise the Balance Sheet as at 31 March 2013, the Statement of Profit and Loss and the Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with accounting principles generally accepted in India, including the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 ("the Act"). This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:

(a) in the case of the Balance Sheet, of the state of affairs of the Company as at 31 March 2013;

S.R. BATLIBOI & Co. LLP

Chartered Accountants

- (b) in the case of the Statement of Profit and Loss, of the profit for the year ended on that date; and
- (c) in the case of the Cash Flow Statement, of the cash flows for the year ended on that date.

Emphasis of Matter

We draw attention to Note 3 to the financial statements regarding expiry of the contract with its sole customer on 30 September 2013. This condition indicates the existence of a material uncertainty that cast significant uncertainty about the Company's ability to continue as a going concern, which is dependent on extension of agreement with its customer. The mitigating factors have been more fully discussed in note 3 to the accompanying financial statements, in view of which the accompanying financial statements have been prepared under the going concern assumption, and consequently, no adjustments have been made to the carrying values or classification of balance sheet accounts. Our opinion is not qualified in respect of this matter.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2003 ("the Order") issued by the Central Government of India in terms of sub-section (4A) of section 227 of the Act, we give in the Annexure a statement on the matters specified in paragraphs 4 and 5 of the Order.
2. As required by section 227(3) of the Act, we report that:
 - (a) We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
 - (b) In our opinion proper books of account as required by law have been kept by the Company so far as appears from our examination of those books.
 - (c) The Balance Sheet, Statement of Profit and Loss and Cash Flow Statement dealt with by this Report are in agreement with the books of account.
 - (d) In our opinion, the Balance Sheet, Statement of Profit and Loss and Cash Flow Statement comply with the Accounting Standards referred to in subsection (3C) of section 211 of the Companies Act, 1956;
 - (e) On the basis of written representations received from the directors as on 31 March 2013, and taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2013, from being appointed as a director in terms of clause (g) of sub-section (1) of section 274 of the Companies Act, 1956.

Mphasis Finsource Limited

1. Corporate Information

Mphasis Finsource Limited was incorporated on 8 June 2006 to set up and manage call centres and carry out business process outsourcing service to its clients.

The Company is a subsidiary of Mphasis Limited ("ML", the parent company). In terms of a merger agreement executed between Electronic Data Systems Corporation, Hewlett-Packard Company ("HP") and Hawk Merger Corporation, the last named company merged into Electronic Data Systems Corporation on 26 August 2008. As a result of this merger, Electronic Data Systems Corporation became a 100% subsidiary of HP and was renamed as Electronic Data Systems LLC. Prior to the above merger Electronic Data System Corporation was the ultimate holding company, however subsequent to the merger, HP became the ultimate holding company of Mphasis Finsource Limited.

2. Basis of preparation

The financial statements of Mphasis Finsource Limited ("the Company") have been prepared and presented under the historical cost convention on the accrual basis of accounting and comply with the mandatory Accounting Standards ("AS") prescribed in the Companies (Accounting Standards) Rules, 2006 (as amended) and other pronouncements of the Institute of Chartered Accountants of India ("ICAI") and the relevant provisions of Companies Act, 1956.

The accounting policies adopted in the preparation of financial statements are consistent with those of previous year.

2.1 Summary of significant accounting policies

a. Use of estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities on the date of the financial statements and the reported amounts of revenues and expenses. Actual results could differ from those estimates. Any revision to accounting estimates is recognised prospectively in current and future years.

b. Revenue recognition

The Company derives its revenues from call centres and business process outsourcing services (BPO).

Revenues from BPO services arises from both time-based and unit priced client contracts. Such revenue is recognised on completion of the related service and is billable in accordance with the specific terms of the contracts with clients.

'Unbilled revenues' included in current assets represent revenues in excess of amounts billed as at the balance sheet date. 'Unearned receivables' included in current liabilities represents the billing in excess of revenues recognised as at the balance sheet date. Advances received for services are reported as liabilities until all conditions of revenue recognition are met.

Interest on the deployment of funds is recognised using the time-proportion method, based on underlying interest rates.

c. Fixed assets and capital work-in-progress

Fixed assets are stated at the cost of acquisition or construction less accumulated depreciation. Direct costs are capitalised until assets are ready to be put to use. Borrowing costs directly attributable to acquisition or construction of those fixed assets which necessarily take a substantial period of time to get ready for their intended use are capitalised. Fixed assets purchased in foreign currency are recorded at cost based on exchange rate on the date of purchase. Acquired intangible assets are capitalised at the acquisition price.

Advances paid towards acquisition of fixed assets are disclosed as capital advance under long term loans and advances and the cost of assets not ready for use as at the balance sheet date are disclosed under capital work-in-progress.

d. Depreciation and amortisation

Depreciation on fixed assets is provided using the straight-line method over the estimated useful lives of assets. Depreciation is charged on a proportionate basis for all assets purchased and sold during the year. Individual assets costing ₹ 5,000 or less are depreciated in full in the year of purchase. The estimated useful lives of assets are as follows:

ASSETS	Years
Plant and machinery (including telecom equipments)	5
Computer equipment	5
Office equipment	5
Furniture and fixtures	5
Vehicles	5

Mphasis Finsource Limited

Fixed assets purchased for specific projects are depreciated over the life of the project or estimated useful life, whichever is lower.

Leasehold improvements are amortized over the remaining lease term or 5 years, whichever is shorter. Purchased application software and internally generated software that is an integral part of the Company's computer systems, expected to provide lasting benefits, is capitalised at cost and amortised on the straight-line method over its estimated useful life or 3 years, whichever is shorter.

e. Leases

Lease where the lessor effectively retains substantially all the risks and benefits of ownership of the leased term, are classified as operating leases. Operating lease payments are recognized as an expense in the statement of profit and loss on a straight-line basis over the lease term.

f. Impairment of assets

The Company assesses at each balance sheet date whether there is any indication that a fixed asset may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the statement of profit and loss. If at the balance sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciated historical cost.

g. Employee benefits

Gratuity which is a defined benefit is accrued based on independent actuarial valuation which is done based on project unit credit method as at the balance sheet date. Actuarial gains/losses are immediately taken to statement of profit and loss and are not deferred.

The cost of short term compensated absence is provided for based on estimates. The Company presents the entire leave as a current liability in the balance sheet, since it does not have an unconditional right to defer its settlement for 12 months after the reporting date. Long term compensated absences that are provided for based on actuarial valuation which is done based on project unit credit method.

Contributions payable to recognised provident fund, which is a defined contribution scheme, is charged to the statement of profit and loss. The Company's liability is limited to the contribution made to the fund.

h. Foreign currency

Foreign exchange transactions are recorded at the rates of exchange prevailing on the dates of the respective transactions. Exchange differences arising on foreign exchange transactions settled during a year are recognized in the statement of profit and loss of that year.

Monetary assets and liabilities denominated in foreign currencies as at the balance sheet date are translated at the exchange rates on that date. The resultant exchange differences are recognized in the statement of profit and loss.

i. Income taxes

Tax expense comprises of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961 enacted in India. Deferred income taxes reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years.

Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to the taxes on income levied by same governing taxation laws. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. In situations where the Company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that they can be realised against future taxable profits.

At each balance sheet date the Company re-assesses unrecognised deferred tax assets. It recognises unrecognised deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realised.

The carrying amount of deferred tax assets are reviewed at each balance sheet date. The company writes-down the carrying amount of a deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realised. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

Mphasis Finsource Limited

MAT credit is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. In the year in which the Minimum Alternative tax (MAT) credit becomes eligible to be recognised as an asset in accordance with the recommendations contained in guidance Note issued by the Institute of Chartered Accountants of India, the said asset is created by way of a credit to the statement of profit and loss and shown as MAT Credit Entitlement. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT Credit Entitlement to the extent there is no longer convincing evidence to the effect that Company will pay normal Income Tax during the specified period.

j. Provisions and contingent liabilities

The Company recognises a provision when there is a present obligation as a result of an obligating event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Provisions for onerous contracts, i.e. contracts where the expected unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received under it, are recognised when it is probable that an outflow of resources embodying economic benefits will be required to settle a present obligation as a result of an obligating event, based on a reliable estimate of such obligation. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

k. Earnings per share

The basic earnings per share is computed by dividing the net profit attributable to equity shareholders for the year by the weighted average number of equity shares outstanding during the year. The number of shares used in computing diluted earnings per share comprises the weighted average shares considered for deriving basic earnings per share, and also the weighted average number of equity shares which would have been issued on the conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the year, unless they have been issued at a later date. The diluted potential equity shares have been adjusted for the proceeds receivable had the shares been actually issued at the average market value of the outstanding shares. In computing dilutive earnings per share, only potential equity shares that are dilutive and that either reduce earnings per share or increase loss per share are included.

l. Cash and cash equivalents

Cash and cash equivalents comprise cash and cash on deposit with banks. The Company considers all highly liquid investments with an original maturity at the date of purchase of three months or less and that are readily convertible to known amounts of cash to be cash equivalents.

3. The Company has net current liabilities of ₹ 54,032,018 as at 31 March 2013 (31 March 2012 : ₹ 68,347,403). The term of the agreement will expire on 30 September 2013 and management is confident that same will be renewed.
