SAP Centre of Excellence (CoE)

Mphasis SAP CoE not only strives to be ahead of the curve amongst industry trends, but also ensures that we are aligned with different platform, framework and application changes brought in by SAP. The below diagram depicts the focus areas of SAP CoE and how the different capabilities and the competencies such as NetWeaver,

Mphasis SAP Solutions

mSwift – SAP HANA Migration Solution

mSwift is a solution for migration of SAP BW on to the HANA platform comprising of automated tools across the different stages of migration that reduce the overall migration cycle time by up to 50%.

SAP Mobility Solutions

Mphasis offers off-the-shelf deployable apps for HR and Sales business processes built on a flexible framework that works seamlessly with SAP ECC and provides the much required agility and speed in enterprise mobility app deployment.

Enterprise Mobile Apps

- **Mphasis Sales Representative App**
App to provide on-the-go access to on-field salesforce for anytime, anywhere access to customer information, order status, payment/billing information and credit status.
- **Mphasis SAP HR Accelerator App**
App for reliable management of HR business process needs such as Time Sheet access and approval and Leave Management.

Value Proposition

- Automated tools for pre-migration assessment, data volume optimisation before migration and post-migration validation
- Better budgeting and predictability in down-time due to high quality pre-migration assessment report
- Cost saving on data storage and processing during migration
- Post-migration functional validation tool applicable across all verticals — an exclusive mSwift feature
