We offer integrated Transportation Management consulting from innovations to solutions.

Increasing transportation costs and the shift of operations between geographies are forcing companies to find efficient solutions to gain competitive advantage. An efficient Transportation Management solution offers enterprises greater visibility into the supply chain with robust transportation planning and execution capabilities.

Mphasis Oracle Transportation Management (OTM) Services

Mphasis' OTM team has the experience of handling customers across Transportation & Logistics, Retail, and Manufacturing industries and help them transform their supply chain into a value chain. Our dedicated OTM Center of Excellence with domain SMEs and techno functional experts focuses on technology and solution accelerators such as re-usable assets, tools, methodologies, and development of effective solutions that helps in increased productivity and better ROI. We have a large pool of transportation process experts and consultants with superior skill sets of OTM.

Our service offerings include:

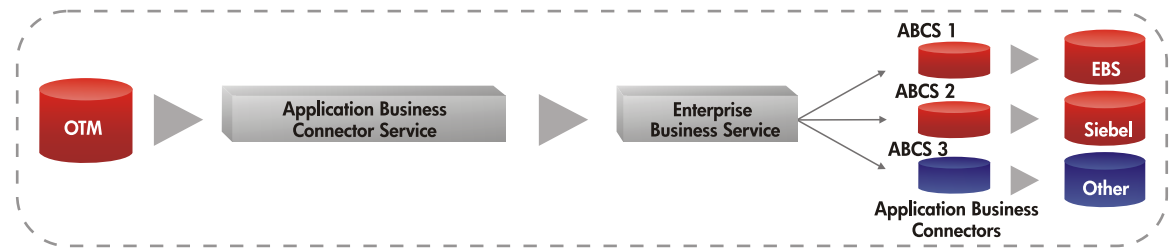

- Transportation Strategy Development
- Process Re-engineering/Refinement
- Requirement Engineering
- Managed Transportation Services
- Custom interface development/enhancements
- Global Trade Management implementation and integration
- Specialized custom built solutions for integrating OTM with SAP and other legacy system using BPEL, Message Broker, etc.
- Complete eBusiness integration and implementation offerings under single umbrella: Integration of OTM with Order Management, People soft, JD Edwards, WMS
- Migration/Upgrade of OTM
- Mapping logistics business scenario and legal requirements for Europe, Asia Pacific and North America
- Customization of OTM as per client's specific requirements; For example, developing Vat Logic and Equipment capacity constraint to cater European complex logistics Transportation Movement and Freight settlements
- Customization of OTM Reports for advance MIS as per business demand
- High-end application support and maintenance post implementation
- 24x7 User Support Help desk

Best Shore Delivery

MphasiS' Best Shore strategy is a key component of our unique delivery model, providing Applications, Business Process Outsourcing and Information Technology Outsourcing services from designated on-site, nearshore and farshore locations worldwide. Our multi-tier global delivery model focuses on managing and controlling service delivery to deliver client solutions faster, at reduced cost and to the highest quality standards.

Integration Services

Our OTM integration services enable real-time flow of data between applications. The Application Integration Architecture (AIA) of Oracle is partially followed to integrate applications. Oracle Adapters are created and existing ones are used to connect to Oracle ERP and OTM system.

Business Cases

CASE STUDY - 1

The Client

An Agribusiness Retail company

Objective

- Reduce transportation and logistics costs
- Improve visibility of orders and shipments
- Standardize processes

MphasiS Solution

- End-to-end OTM implementation including integration and post implementation support
- Integrating third party softwares like PC Miler, GENTRAN with the OTM application

Business Benefits

- Cost savings of \$6M
- Delivered efficiencies within the logistics group
- OTM provided a solid scalable platform for growth
- Provided global access to accurate, real-time data thereby enabling staff to make better and timely logistics decisions

CASE STUDY - 2

The Client

A leading Manufacturing company

Objective

- Reduce transportation and logistics costs
- Increase cost-effectiveness by replacing the homegrown systems with a TMS solution
- Improve visibility of orders and shipments
- Standardize processes

MphasiS Solution

- OTM application roll out and post implementation support
- Integrating third party software, PC Miler, with the OTM application

Business Benefits

- Cost savings related to the utilization of the lowest cost carrier within trucking logistics
- Delivered efficiencies within the logistics group
- OTM provided a solid scalable platform for growth
- Provided global access to accurate, real-time data thereby enabling staff to make better and timely logistics decisions
