INFORMATION SECURITY POLICY

Mphasis is committed to protect its information assets and provide a secure environment for delivering services to its customers. Mphasis shall strive to secure information by:

- Establishing and maintaining an effective Information Security Management System.
- Performing information security risk assessment periodically.
- Implementing information security controls to mitigate the identified risks.
- Complying with the legal, regulatory and contractual information security requirements.
- Deploying the most appropriate technology and infrastructure.
- Creating a security conscious culture within Mphasis.
- Continually monitoring and improving the effectiveness of the Information Security Management System.
