The Black Book of Outsourcing has ranked Mphasis as the fourth best managed outsourcing vendor for the year 2005. The rankings are based on customer satisfaction and employee satisfaction surveys, comparisons with independent vendors, ratings of client performance and reports from global consulting firms.

Twelve Indian companies form part of the list for 2005. Mphasis' management practices have been ranked ahead of bigger industry peers like Infosys, Wipro, Satyam and Cognizant. This recognition follows the #1 ranking for inbound customer service among CIS' Top 50 Teleservices Agencies, an honor we received in March.
