

# Mphasis Helps UK-based Healthcare Company Migrate to Exchange 2013

## The Client

The client is one of the largest healthcare providers based out of the UK.

## Business Objective

The client needed to achieve coexistence between their Lotus Notes and Exchange 2013 consistently. Directory synchronization, contact availability, and mail routing needed to be in-sync.

## How Mphasis Helped

Through an assessment of the existing Lotus Notes, Active Directory, and Exchange environments, Mphasis prepared detailed reports for all mailboxes. The solution then included document design, migration planning, and processing.

Coexistence was provided through Quest CMN, which reduced the unavailability of mailboxes by 50% during the migration process – effectively decreasing possible disruptions.

## About Mphasis

Mphasis is a global Technology Services and Solutions company specializing in the areas of Digital and Governance, Risk & Compliance. Our solution focus and superior human capital propels our partnership with large enterprise customers in their Digital Transformation journeys and with global financial institutions in the conception and execution of their Governance, Risk and Compliance Strategies. We focus on next generation technologies for differentiated solutions delivering optimized operations for clients.
