

Mphasis AWS Migration Services

Powering Intelligent Acceleration in Cloud Migration

While migrating applications and IT assets to the cloud is a great transformative opportunity to lower costs, enhance agility and deliver reliable and readily available services at scale, they present some real challenges too.

- **Technology complexity** in deconstructing the on-prem technology environments, performance and relationships of migrating apps
- Operational complexity in understanding operational processes and handling embedded tribal knowledge
- Security complexity in dealing with security policies, governance and regulatory compliance, and talent and culture issues

Building the right business plan with the right processes and best-in-class migration tools and resources will ensure smooth migration to the cloud minus delays and cost overruns.

Mphasis AWS Migration Services unlocks value and delivers high ROI through intelligent acceleration of migration to AWS. Through a platform automation approach, we enable you to migrate and modernize apps and data faster and at scale.

The Mphasis Migration Approach

We drive true transformation with a cloud-first mindset, and cloud native architecture and engineering practices to enable organizations achieve speed and agility in competing with disruptors.

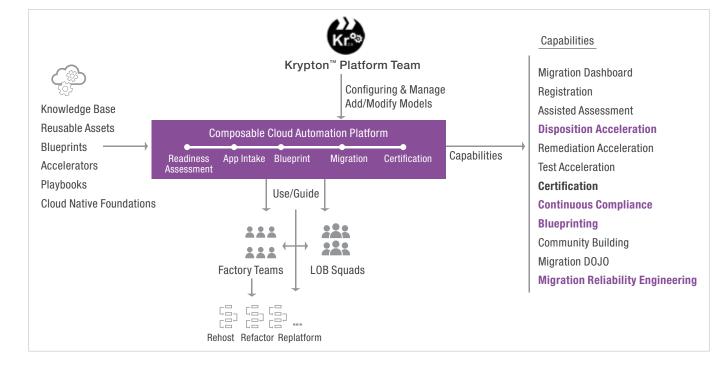

With an automation-first approach to migration and modernization, we deliver 2x faster transformation and higher Rol. Additionally, we augment the best of AWS tools and processes with our modernization and hybrid multi cloud accelerators.

Krypton[™] - Mphasis' Intelligent Migration Factory

With an automation-first and DevSecOps-led approach to migration and modernization, Mphasis Krypton[™] enables enterprises to achieve large scale migrations in a faster and more secure manner with optimized cost of run.

Blending a 7R migration approach (Rehost, Re-platform, Replace, Refactor, Rearchitect, Rebuild, Retain and Retire), DevSecOps automation, the right remediation and transition strategies, and sound governance, Mphasis Krypton[™] provides the following capabilities:

- Migration dashboard
- Registration
- Assisted assessment
- Disposition acceleration
- Remediation acceleration
- Test acceleration
- Certification
- Continuous compliance
- Blueprinting
- Community building
- Migration DOJO
- · Migration reliability engineering

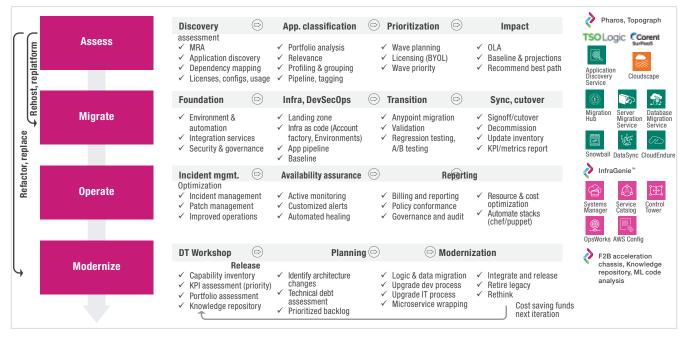

Comprehensive Solution Components

A DevSecOps-led composable cloud migration and modernization platform, Krypton[™] enables the complete cycle of assessment, mobilization, migration and modernization.

Leveraging the best of AWS, Mphasis IP and third-party tools, we make migrations intelligent, speedy, efficient and agentless.

The Mphasis Advantage

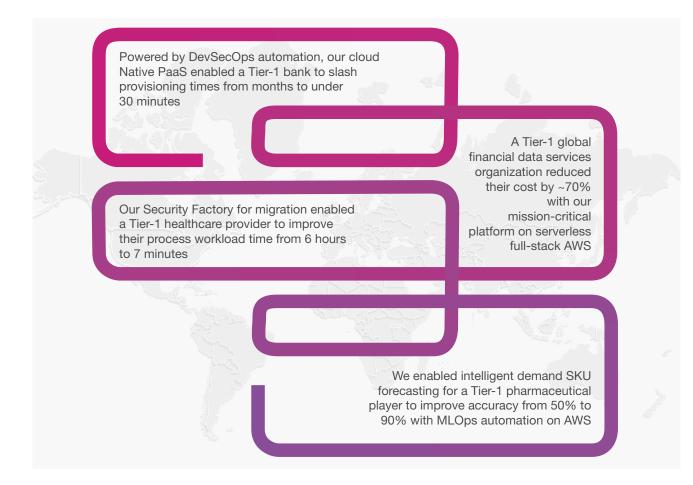

Our AWS migration services are marked by the following differentiators:

Our differentiators enable us to deliver positive outcomes that include:

- 40% faster cycle time
- 30% saving in post-migration OPEX
- 30% reduction in transition cost
- · Secure foundations with continuous compliance factories

About Mphasis

Mphasis' purpose is to be the "Driver in the Driverless Car" for Global Enterprises by applying next-generation design, architecture and engineering services, to deliver scalable and sustainable software and technology solutions. Customer centricity is foundational to Mphasis, and is reflected in the Mphasis' Front2Back[™] Transformation approach. Front2Back[™] uses the exponential power of cloud and cognitive to provide hyper-personalized ($C = X2C_{Lu}^2 = 1$) digital experience to clients and their end customers. Mphasis' Service Transformation approach helps 'shrink the core' through the application of digital technologies across legacy environments within an enterprise, enabling businesses to stay ahead in a changing world. Mphasis' core reference architectures and tools, speed and innovation with domain expertise and specialization, combined with an integrated sustainability and purpose-led approach across its operations and solutions are key to building strong relationships with marquee clients. <u>Click here</u> to know more.
