TCS attrition shows no sign of ebbing

SHIVANI SHI NDE Mumbai, 8 July

Attrition at India's largest I'I services provider Tata Consultancy Services (TCS) continues to rise at a fervent

continues to rise at a fervent pace.
For the Q1 of FY23, the company reported an attrition rate of 197 per cent. The management said the high number was partly due to the seasonality impact when junior employees opt for higher studies as well as supply-side constraints.
The management added that attrition will see some moderation only in the second half of this financial year. "On an absolute basis, it is continuing to increase, though on a percentage basis, it is starting to flatten. And though on a percentage basis, it is starting to flatten. And, we espect it to continue into Q2 also. It will be H2 when we will start seeing some amount of moderation. That's our immediate short-term view on attrition but from a medium-to-long term, we think that both the supply side as well as the demand side is easing up. This is in terms of talent coming from outside of the immediate industry system and that should play into moderation," said Rajesh Goipntahan, chief executive officer (CEO) and managing director (MD). TCS.

executive officer (CEO) and managing director (MD), TCS. However, the 19.7 per cent attrition rate is much higher than 174 per cent reported in the preceding quarter and way ahead of the 8.6 per cent in QI of FY22.
