

MphasiS Releases a Comprehensive Solution to Enable Oracle E-Business Suite and Oracle's PeopleSoft Users to Upgrade to The Latest Versions

New York, NY September 24, 2013

[MphasiS](#), a leading IT services provider, today released MphasiS Upgrade and Transformation Services (MUSTS), a proprietary solution for upgrading to the latest versions of the Oracle E-Business Suite and Oracle's PeopleSoft. Designed to enable organizations to optimize the cycle time for upgrade, MUSTS is easy to deploy, provides cost-effective assessment and capitalizes on MphasiS' best practices to ensure a virtually seamless implementation without compromising user experience. With MphasiS MUSTS, organizations can easily migrate from Oracle applications including the Oracle E-Business Suite 11i to the Oracle E-Business Suite Release 12.1 and Oracle's PeopleSoft 8.0 to PeopleSoft 9.1.

Organizations have a limited window to upgrade to recent versions of these applications softwares and must ensure compliance and minimal downtime during the migration. A comprehensive solution, MUSTS offers bundled tools, assessment questionnaires, evaluation templates and accelerators to understand customer needs, align with their IT strategy and assist them in planning for the future—thereby ensuring a virtually seamless and quick migration. By upgrading to a recent release, customers have access to new features and functionality, thereby extending the value of their investments. Oracle has demonstrated its commitment to continue to invest in the Oracle E-Business Suite and PeopleSoft by including thousands of new features, functions, and enhancements in the Oracle E-Business Suite 12.1 and PeopleSoft 9.2 releases..

Attributes and features that make MUSTS ideally suited to migrate Oracle business applications include:

- End-to-end Oracle application upgrade from holistic assessment, upgrade execution to ongoing support.
- Predictable delivery to avoid mid-project surprises.
- Access to proprietary tools and accelerators along with comprehensive testing framework to address critical concerns during upgrade.

For more information or to see a demo, please visit us at Booth 643 at Oracle OpenWorld being held in San Francisco from September 22-26, 2013. MphasiS is a Gold level member of Oracle PartnerNetwork.
