

Bengaluru, 10 August, 2017: [Mphasis](#) (BSE, NSE), a leading IT solutions provider specializing in cloud and cognitive services, today announced that it has been recognized at the Asia Edition of ‘**Dream Companies to work for**’ organized by World HRD Congress. Mphasis was declared the winner in two categories – ‘*Dream Companies to Work in IT & Software sector*’ and ‘*Fun at Work award*’.

Over 750 nominations from organizations of all sizes and industries across India were submitted this year. All nominations went through a rigorous six step screening process including evaluation by a Professional Council followed by a live presentation by the companies to the jury. Post a rigorous screening process by an eminent jury, Mphasis emerged as a winner for putting employee engagement at the heart of their business strategy. Mphasis was recognized for its exemplary and innovative Human Resources (HR) practices, company values, work culture and more.

“We are humbled and honored to be the recipient of the dual awards in the industry’s best known HR recognition platform. At Mphasis, we believe in creating a workplace where employees are not only energized but are also constantly innovating to make the workplace better for our people and it is with great pleasure I accept this award,” said **Srikanth Karra, Chief Human Resources Officer, Mphasis**.

The Dream Company Awards is amongst the leading recognitions in the stream of Human Resource Management and Talent Engagement. The award recognizes organizations that are driving disruptive employee engagements strategies through “adaptive” HR policies. Today, HR policies are well aligned with the business environment. Managing complexity and disruptions to drive industry best innovation has become the top most priority for any organization. Companies are expected to build an environment that leads them to be the ‘Dream Company’ amongst the current and potential talent.

About Mphasis

Mphasis (BSE: 526299; NSE: MPHASIS) enables customers to reimagine their digital future by applying a unique formula of integrated cloud and cognitive technology.
