

25% App Packaging Cost Reduction for a Leading IT Security Services Company

The Client

The client is the largest IT Security Services Company and is based in the US.

Business Objective

The client chose Mphasis to manage its application packaging including designing, building, and managing Windows 7/8.1 images to support 40+ devices. The client also wanted a standardized build process that could accommodate future changes.

How Mphasis Helped

Mphasis standardized configuration designing and image creation and devised a deployment strategy for the client. As part of the solution, Mphasis also automated peer review packaging and image creation.

Through the engagement, the client realized 50% effort reduction in quality assurance processes and achieved 25% cost savings.

About Mphasis
