Go Cloud Native - Untether and Accelerate on PaaS

Are you looking for expert support in leveraging the Cloud for unique strategies to deliver a value-driven portfolio of Cloud native experiences?

Mphasis understands both the art and science of delivering value on the Cloud. We offer an end-to-end suite of Cloud service packages to drive scalable Hybrid Cloud management platforms for holistic transformation on the Pivotal Cloud Foundry.

The right-sized PaaS modernization on Pivotal Cloud Foundry (PCF)

Do you have a large portfolio of applications that you are looking to modernize?

We apply lean value streaming strategies to transform large legacy application portfolios into modern Cloud native portfolios on PCF. With right-sized, strategic and smart migrations on PCF, we enable faster time to market for the crucial competitive edge.

Mphasis Strategic Portfolio Architecture (SPA) - Faster Time to Value on PCF PaaS

Do you feel you have started late in the Cloud journey and looking to overtake competition?

We accelerate Cloud adoption and enable the right differentiation in the fastest time. Our accelerator package on PCF can speed PaaS adoption, achieve standardization, bring developers on-board faster and accelerate 'time-to-value'.

Customer Reliability Engineering Program on PCF – Reduce toil and improve transactional guarantee on Hybrid Cloud

Do you feel you cannot afford to linearly scale your support teams based on the demand curve?

As you become Cloud native on PCF PaaS and deliver personalized products and services, you need the right strategies and capabilities for effective client monitoring.

Our Enterprise Architecture team collaborates with strategic partners to help you define and run a lean transaction monitoring and client reliability programs on PCF-run Hybrid Cloud.

'Zero-\$' transformation to Cloud

Do you need a faster way to lower costs today, while protecting your future path to becoming Cloud native?

With our self-funded migration path on PCF, we not only lower costs but also move clients on strategic paths to Cloud native maturity on PCF.

Mphasis Strategic Portfolio Architecture (SPA)

Your enterprise **Cloud Native accelerator**

The Experience

APPS

Our Framework

The Foundation

PCF

IaaS

- Abstract PaaS Dev complexities
- Faster PaaS portfolio adoption
- Highly scalable framework
- Accelerator formation templates
- Pre-wired best-of-breed tech stack

Business Benefits

Our rapid cloud native development factory approach in rolling out mission critical and Next Gen applications on PCF provides the following benefits:

- Rapid product roll outs
- Faster and differentiated innovations
- Reduction of application development time by more than **50%**
- Infrastructure provisioning time improvement by **60%**
- Built-in scalability, speed and fungibility

Success Stories

Driving faster and differentiated innovations for a global top tier logistics provider.

As the client's strategic PCF PaaS innovation partner our solution enabled them to provide customized and same day intra-city delivery to their customers with real-time tracking.

The solution features included:

Unified experience across mobile and web platforms

Cloud (Pivotal) based
Micro services architecture

Integration of retail partners
through APIs

'Hold At Location' (HAL) to empower customers
to choose flexible delivery options

Email, SMS notifications and
visual tracking

Integration with third-party logistics for
Shipping and Operations services

Highlights:

⚙️ Solution Delivered in **4 months**,
from a typical **12-month** cycle 

⚙️ The client experienced the benefits of **accelerated speed-to-market** through DevOps, consistent and contiguous user experience across multiple channels, faster on-boarding of retailers, and a scalable architecture to support a large customer base.

About Mphasis

Mphasis (BSE: 526299; NSE: MPHASIS) applies next-generation technology to help enterprises transform businesses globally. Customer centricity is foundational to Mphasis and is reflected in the Mphasis' Front2Back™ Transformation approach. Front2Back™ uses the exponential power of cloud and cognitive to provide hyper-personalized ($C = X2C_{\infty}^2 = 1$) digital experience to clients and their end customers. Mphasis' Service Transformation approach helps 'shrink the core' through the application of digital technologies across legacy environments within an enterprise, enabling businesses to stay ahead in a changing world. Mphasis' core reference architectures and tools, speed and innovation with domain expertise and specialization are key to building strong relationships with marquee clients.
