

Saving Cost and 3 Months of Effort in SharePoint Migration for a US-based Pharma Company

The Client

The client is a leading pharmaceutical company headquartered in North America.

Business Objective

Migration of SharePoint 2010 production sites from an in-house datacenter to the cloud. The client also needed to test and migrate the service application from SharePoint 2010 to SharePoint 2013.

How Mphasis Helped

Mphasis automated the overall migration process and remediated failed migrations. The solution was carried out based on a hybrid model with in-house built tools and database upgrade scripts.

The migration was successfully performed with 0% human error and the client was able to achieve significant cost savings through automation. The migration was completed well ahead of the schedule – saving 3 months of time, cost, and effort for the client.

About Mphasis

Mphasis is a global Technology Services and Solutions company specializing in the areas of Digital and Governance, Risk & Compliance. Our solution focus and superior human capital propels our partnership with large enterprise customers in their Digital Transformation journeys and with global financial institutions in the conception and execution of their Governance, Risk and Compliance Strategies.
