

# Super-Major Oil and Gas Company Achieves 100% Patching Success Rate

## The Client

The client is a super-major oil and gas company with global footprint.

## Business Objective

The client needed to improve time-to-market by standardizing build processes and reducing the steps/time involved in the testing cycles. Due to its scale and infrastructure complexities, the client faced significant challenges in monitoring while performing platform migrations.

## How Mphasis Helped

Mphasis deployed an automated process for server build and health check. An automated tool was also employed for patch installation. Through the engagement, the client was able to reduce server build time by 90%. Automation also eliminated 19000 logins and logouts, resulting in 0% human errors.

## About Mphasis

Mphasis is a global Technology Services and Solutions company specializing in the areas of Digital and Governance, Risk & Compliance. Our solution focus and superior human capital propels our partnership with large enterprise customers in their Digital Transformation journeys and with global financial institutions in the conception and execution of their Governance, Risk and Compliance Strategies. We focus on next generation technologies for differentiated solutions delivering optimized operations for clients.
